

Analyzing Retail Sales to *Brew* Better Decisions

The main objective of this project is to analyze **retail sales data** to gain actionable insights that will enhance the performance of the Coffee Shop — turning daily transactions into a clear read on **what sells, when, and where.**

Recommended Analysis

A quick-glance list of the questions this dashboard is built to answer, from busiest hours to best-selling roasts.

-  How do sales vary by **day of the week** and **hour of the day**?
-  Are there any **peak times** for sales activity?
-  What is the **total sales revenue** for each month?
-  How do sales vary across different **store locations**?
-  What is the **average price per order**, per person?
-  Which products are the **best-selling** in terms of quantity and revenue?
-  How do sales vary by **product category and type**?

seven questions, one great cup
